PROFESSIONAL SUMMARY

UX/UI Designer experienced in shipping high-fidelity Figma interfaces, building reusable design systems, and documenting interaction specs for developer handoff. Strong user research and usability testing foundation from Humber Polytechnic's UX Design program. Portfolio spans shipped game UI, mobile interaction concepts, and product design. Comfortable adapting UI patterns to brand guidelines and collaborating cross-functionally with developers and stakeholders.

EXPERIENCE

Floppy Goat Inc. UI/UX Designer

Montréal (Remote)
Jun 2025 - Dec 2025

- Produced 24+ high-fidelity Figma screens with defined states and interaction rules for dev handoff
- Built a reusable design system of 15+ components to speed iteration and ensure UI consistency
- Translated requirements into user flows, wireframes, and prototypes, reducing stakeholder rework
- Refined IA, visual hierarchy, and interaction patterns with cross-functional leads
- Validated accessibility, contrast, and focus states across 24+ screens for demo readiness
- Authored microcopy for 10 tooltip variants and UI states, aligning terminology across screens
- Prepared annotated handoff specs with layout rules and spacing to support implementation
- Synthesized design and developer feedback into updated prototypes for faster alignment
- Performed design QA across all screens to confirm consistency before client and demo reviews
- Documented edge cases and interaction rules to reduce developer questions during build

Care UK

Larbert, Scotland
Nov 2023 - Dec 2024

Elder Care Domestic

- Followed strict safety and infection control protocols in a regulated healthcare environment
- Supported residents and staff with responsive service and professional communication

Freelance

Scotland (Remote)
Feb 2023 - Nov 2023

Digital Designer

- Delivered branded digital assets for 7+ clients with consistent typography and layout systems
- Iterated from brief to final asset with structured feedback and fast revision turnaround
- Maintained versioning and export workflows to keep reviews efficient and handoffs reliable
- Crafted motion elements in After Effects for social campaigns and promotional content
- Designed social and marketing assets in Photoshop and Illustrator with brand-aligned visuals
- Coordinated client revisions and delivered updated exports on tight turnaround schedules

Lotus Pictures Inc.

New York City, NY
Sep 2022 - Feb 2023

Video Editor Intern

- Streamlined review cycles by packaging versioned exports that accelerated approvals
- Standardized folder structures and media organization to improve asset reuse across the team
- Implemented revision notes accurately to keep deliverables aligned with creative direction
- Created short-form cuts of existing content for cross-platform social distribution
- Organized B-roll and media assets with clear naming conventions to speed team workflows

EDUCATION

Humber Polytechnic

Toronto, ON

Graduate Certificate, User Experience Design

Jan 2025 - Dec 2025

Coursework: User Research, Interaction Design, Product Design, Usability Testing, Information Architecture, Ethnography

Awards: Dean's List (all three semesters)

Forth Valley College

Stirling, Scotland

Higher National Diploma, Sound Production

Aug 2020 - Sep 2022

Coursework: Sound Design, Audio Recording and Editing, Mixing and Mastering, Audio for Media Production

SKILLS

UX/UI: User flows, wireframing, prototyping, interaction design, design systems, user research, usability testing, information architecture, responsive design, accessibility

Visual Design: Layout, typography, visual hierarchy, grid systems, brand consistency, responsive UI, asset QA

Research: User interviews, research synthesis, stakeholder presentations, documentation

Communication: Cross-functional collaboration, stakeholder management, iterative feedback loops

Tools: Figma, FigJam, Miro, Photoshop, Illustrator, InDesign, After Effects, Premiere Pro
